

Applied Wireless **Identifications, Inc.**

AWID is a world-class RFID component and sub-system supplier to the RFID industry. They provide leading-edge products in Access/Security markets and in Asset/Logistic markets. AWID offers "best-in-class" access control reader, and the world's highest performance Multi-Protocol RFID readers for asset/logistic solutions.

For the year 2002, VDC (Venture Development Corp) ranked AWID #4 on reader sales in the USA, and #7 on all RF readers sold in the World, and AWID is also the World's #1 manufacture of Handheld RFID readers for Supply Chain, Logistics and Transportation applications (800MHz through 2.45GHz).

Founded in 1997, profitable since January 2002, and growing at over 200% per year for the past two years, AWID has become the World's fastest growing RFID reader manufacturers and AWID's MPR (Multi-Protocol RFID) readers are able to read practically any RFID protocol commercially available today.
